

PERQUE

Detox IN Guard™

POWERFUL SUPPORT FOR NERVE AND IMMUNE CLEANSING

WHY YOU NEED PERQUE DETOX IN GUARD

In today's world, **PERQUE'S** dynamic **Detox IN Guard** is more vital than ever. Toxins can accumulate and damage critical internal body systems, unless you have an active anti-toxin program.*

Over the past 50 years, more than 100,000 chemicals have been introduced into the environment. When you are exposed to these chemicals, your body must detoxify them. Toxins include 1) pollutants in the air, water, and soil; 2) toxic metals such as lead, cadmium, and mercury; 3) pesticides, herbicides, insecticides, fungicides, and fumigants. Further, food additives and preservatives can adversely affect nerve and immune function in many people. Any distress is a further "tax" on the system that **PERQUE Detox In Guard** can help relieve.*

Nerve and immune tissues become impaired as a result of this "toxic overload." **Excess toxins** sabotage delicate cell machinery, leading to less endurance and energy, impaired immune function, and **less resilience** in dealing with everyday stresses and challenges.*

THE DETOX IN GUARD INNER CLEANSER

PERQUE Detox IN Guard is a unique, exclusive formula that meticulously detoxifies the tissues involved in the immune and nervous systems. This combination of amino acids, lipotropic factors, and minerals effectively clears out the toxins that accumulate in the nerve and immune system tissues and cells.* plus: **PERQUE Detox IN Guard** neutralizes excess cellular acid, thereby protecting cells against corrosion.* **PERQUE Detox IN Guard** effectively promotes resistance in four ways:

1. Methionine, glycine, cysteine, and glutathione are potent nutritional detoxifiers that also reduce homocysteine levels and boost neuroimmune and cardiovascular health.*
2. Choline and inositol improve cell communication and increase cells' defenses against viruses and other infectious agents.*
3. Ascorbyl palmitate is a membrane-protective form of vitamin C.*
4. Energizing and alkalizing co-factors help cells support optimal health.

SYMPTOMS OF HEAVY METAL TOXICITY

Chronic exposure to heavy metals is a growing health problem in industrialized societies. These metals include lead, mercury, antimony, chromium, cadmium, and arsenic.* Heavy metal toxicity is characterized by fatigue, musculoskeletal complaints, mood swings, anemia, neurological problems, hypertension, kidney and liver dysfunction, endocrine problems, and immune dysfunction.* Heavy metals are excreted through the urine, feces, and sweat glands. But when these detoxification routes aren't working right, you may experience toxic symptoms.*

RECOMMENDED USE

Occasionally, people have acquired a substantial toxic burden. Their detoxification cellular systems are in such disrepair that, as **PERQUE Detox IN Guard** starts to "clean house," the mobilized toxins cause people to feel queasy. To begin detoxification:

- Start slowly with just one (1) or one-half (1/2) tabsule of **PERQUE Detox In Guard** per day.
- Double the dose every three (3) weeks or so.
- Drink at least eight (8) glasses of water daily and avoid caffeinated, sugared, and artificially sweetened beverages.
- By slowly increasing the use of **PERQUE Detox In Guard**, sustainable good health is more easily achieved.
